Actress Has Heavy Cold and High Temperature.

(By the International News Service.) Wilminston, Del. Dec. 2.—Mme. Sarah Bernhardt was taken ill at the du Pont thote lake this afternoon following her trip from Harrisburg and was unable to appear at the play house tonight. It was necessary to cancel the performance after one of the largest audiences in the history of the theater had assembled. Mme. Hernhardt was attended by her own private physician, who accorpanies her, and by Doctors W. H. Kramer and R. E. L. Good, of this city. The physicians stated that Mme. Bernhardt was suffering from a severe cold which made it impossible for her to speak above a whisper and that her temperature was very high. They hoped, however, that she would be able to proceed to New York in the morning.

mand voiced generally is a new warcouncil. Heavy journalistic guis are being trained on Premier Asquith, and Visecount Grey. Lidoyd George again isoms
up as the nation's strongest man. His
name is generally urged for the premiership.

Interest today centered upon a morning conference between the King and
Premier Asquith, but not an inkling leaked out as to the subjects discussed.

The storm that has been brewing for
some weeks under the surface is expected
to break loose during the Parliament
sessions in the coming week. No effort
is made by the press and public to conceal the fact that the Teuton successes
in Rumania are the basis of the growing
discontent. The development of the
Balkan situation is chiefly responsible
for the demand for a smaller war council
with new blood and more energy and
initiative than have been evidenced by
the prespent body.

The political atmosphere is tense and
tonight it seemed problematical how the
government will be able to stave off a
seneral debate in the house of commons.

After introducing a new bill of warreddit on Tuesday the premier is expected
to give a comprehensive resume of the
questions uppermost in the nation's mind.

charies Ketteson, actung serions consul, and Charies Elimendorf, a German, had been put to death by the bandit's orders.

According to reports given out here today by Inspector of Consuls Garcia, Villa has been routed by Gen. Murguis, at the head of a Carnana force at kilometer 157-3, which is thirty-six miles south of Chihuahua City.

It is believed by Federal agents here that Villa has evacuated Chihuahua City and, taking his booty and ammunition has retired to the mountains and that the battle at Kilometer was only a battle between outposts. Earlier in the day it was reported that Gens. Trevino and Murguis were on the outskirts of Chihuahua City with orders to attack at dawn.

In the meantime, Gen, Gonzales is continuing the mobolization of troops at Juarez. Towns to the north are being abandoned by the inhabitants in fear of a Villa attack.
